About Cantex Mining Services:

Cantex Mining Services is a premier civil and mining construction company based in British Columbia, proudly 100% Indigenous owned. A part of K'en T'em Limited Partnership, which is owned by the eight bands of the Citxw Nlaka'pamux Assembly, Cantex is known for our high standards of quality, safety, and efficiency. We bring together a team of seasoned management professionals and a fully trained operational workforce to get the job done right. At Cantex, we take pride in our well-managed projects that prioritize safety and timely completion. Our commitment to outstanding workmanship, dedication, and service ensures our clients' projects are completed on time, within budget, and to the highest standards. As an Indigenous-owned company, we are deeply invested in supporting our communities and creating lasting economic opportunities for future generations.

Position Overview:

We are looking for a skilled and experienced Heavy Duty Mechanic to join our team at the Highland Valley Copper mine site. This is a company position, and the successful candidate will be provided with the necessary service truck — this is not a contractor role requiring a personal service truck. The ideal candidate will be responsible for the maintenance, repair, and servicing of heavy equipment, including Dozers, Excavators, Graders, and Rock Trucks. This role offers a great opportunity for someone with a solid mechanical background and proficiency in handling heavy machinery in a rigorous mine site environment.

Responsibilities:

- Perform scheduled maintenance, diagnostics, repairs, and preventive maintenance on Dozers, Excavators, Graders, and Rock Trucks.
- Diagnose and repair mechanical, electrical, and hydraulic issues.
- Maintain accurate records of all maintenance and repairs conducted on equipment.
- Ensure all work adheres to safety standards and regulations.
- Collaborate with team members to ensure efficient equipment availability.
- Assist in procurement of necessary parts and materials for repairs and maintenance.
- Respond promptly to emergency breakdowns to minimize downtime.
- Adhere to site-specific safety policies, ensuring a safe and tidy work environment.

Qualifications:

- Ability to work effectively in a safe and productive environment.
- Valid trade certification or equivalent experience as a Heavy Duty Mechanic or Diesel Engine Technician.
- Proven experience working on Dozers, Excavators, Graders, and Rock Trucks.
- Ability to work independently and as part of a team.
- Strong commitment to safety with keen attention to detail.
- Previous experience in a mine site or similar industrial setting preferred.
- Physical capability to perform strenuous tasks in various weather conditions.

Please Note:

This is not a camp provided site. Employees are required to be from the region & find their own accommodations for this local hire project.
