

JOB POSTING

Quality Control Manager

JOB TITLE:	Quality Control Manager
TERM:	Full-Time, Permanent
PAY SCALE:	\$120,000 - \$160,000 annually
WORK LOCATION:	Highland Valley Copper – Mine Life Expansion, Logan Lake, BC
SCHEDULE:	Typical shift is 14 days on and 7 days off

Cantex Mining Services is a leading civil and mining construction company, proudly 100% Indigenous-owned and headquartered in Merritt, British Columbia. As a subsidiary of K'én T'em Limited Partnership, we are recognized for our commitment to safety, quality, and operational excellence. We take pride in delivering reliable, high-performing projects while creating meaningful opportunities and supporting sustainable growth for the communities we serve.

Cantex Mining Services is seeking an experienced Quality Manager for an earthworks and heavy civil construction project near Logan Lake, BC. Civil construction and/or mining experience is required. This role supports Project Managers, Superintendents, and other project leaders in the implementation and management of quality processes, inspections, reporting, and documentation. The Quality Manager is responsible for ensuring compliance with project specifications, regulatory requirements, and company quality standards. Safety is our top priority, and our culture is built on teamwork, accountability, and delivering projects safely.

Primary Duties

- Manage all Quality Control Turnover Requirements.
- Develop, implement, and maintain Inspection and Test Plans (ITPs).
- Coordinate with construction, engineering, and client representatives to ensure quality requirements are consistently met.
- Review and verify construction documentation, including drawings, procedures, specifications, and quality records.
- Management of the Non-Conformance Reports, facilitate timely corrective actions, and verify effective resolution.
- Conduct quality audits and field inspections to ensure compliance with project quality standards.
- Support project turnover and completion activities, including preparation and verification of turnover documentation packages.
- Maintain accurate inspection records, test reports, and quality documentation.
- Provide quality and constructability input during project planning and execution phases.
- Foster a culture of quality, continuous improvement, and proactive problem solving across site teams.

Knowledge, Skills, and Abilities

- Strong knowledge of applicable industry codes and standards, including CSA, ASTM, and client specifications.
- Excellent analytical skills with exceptional attention to detail.
- Strong leadership, communication, and interpersonal skills.
- Ability to perform effectively in fast-paced, high-pressure project environments.

Experience and Requirements

- Extensive experience in Quality Control within mining and construction environments.
- Demonstrated experience leading and supervising Mining and Earthworks QC teams.
- Proven experience with inspection processes, quality documentation, turnover packages, and completion systems.
- All successful candidates must provide the following prior to confirmation of start date:
 - Pre-Access Drug Screening
 - Void Cheque/Direct Deposit Form
 - Copy of Driver's License
 - Copy of Driver's Abstract

Work Environment

- Schedule: Typical shift is 14 days on and 7 days off (may vary based on project requirements).
- Overtime: Time over 10 hours is paid at 1.5x and hours over 12 are paid at 2x.
- Travel: Travel may be required based on project requirements.
- Living Out Allowance (LOA): Available for experienced candidates who reside outside of the living area.
- Work Location: Highland Valley Copper – Mine Life Expansion, Logan Lake, BC.
- Benefits: Cantex offers a competitive benefits package, including extended health, dental, and vision coverage.

Please Note: This is a local hire project. Camp accommodation is not provided. Employees must reside in the region or secure their own accommodations.
